Why choose us?

We believe a vital part of ensuring ongoing success, is understanding the importance of a robust and efficient management reporting system. You can benefit from the increased performance and reliability that our integrated solution brings to your organisation.

EKW Group are part of an integrated global advisory network combining tax, legal, audit & accounting services.

Being part of ETL Global allows us to combine our knowledge and experience to deliver fast, effective results nationwide.

Our 80+ years of experience, combined with a passion to provide an outstanding service means we are more than confident we can have a positive impact on your business, helping you achieve ambitious growth targets.

By combining the power of technology with our personal service we are able to deliver a cost effective solution that will free up your time to focus on managing your business.

TAX PLANNING

Self Assessment tax returns

Our compliance service has always been about understanding the individuals personal circumstances and being pro-active with tax planning advice to ensure opportunities for mitigating tax liabilities are taken advantage of. Tax is a complicated area but we take the time to ensure clients are aware of their own situation and how they can legitimately take advantage of the many tax reliefs and exemptions available to themselves.

Tax planning & profit extractions

Having a close working relationship with clients and understanding their current needs and plans for the future allows us to undertake bespoke tax planning services for them and their families. The international nature of the EKW Group enables us to undertake this work, whether in the UK or Overseas, our services include:

- ✓ Establishing UK and offshore tax structures
- ✓ International tax planning for individuals and businesses
- ✓ Planning around retirement requirements, considering tax relief, domicile status and life time allowances for pensions

Benefits in kind (P11D)

When businesses provide taxable benefits to employees they have to prepare P11d's for HMRC. We work with businesses to ensure all benefits are highlighted and dealt with in the appropriate manner. Keeping up to date with current legislation is just part of the service we offer.

AUDIT & COMPLIANCE

Our team invest time in understanding your business requirements, goals & objectives.

We naturally provide guidance and support to help you achieve your aspiration. An independent auditor will provide insight into the trade, systems and plans for the future of its clients. Our methods will assess and understand your business, so we can recommend strategic ways to enhance and improve your business performance. As registered and experienced auditors, we can provide statutory audits in compliance with all the necessary legislations, so you can be assured your financial details are in safe hands.

Audit service quality is fundamentally important to foster trust in the reporting process. We offer audit services based on achieving a real understanding of our clients businesses and the quality and effectiveness of their accounting and control systems. We provide the necessary tools to allow you to control and monitor your company. Our service is specifically catered to you and your business in order to decipher what it is exactly that you need to enable business growth and development. With our partnership, we can give your business strength and stability.

“

Dilen Patel, Managing Director, Falcon Garages

The service has been invaluable to my company's growth. Their professionalism has enabled me to make viable decisions in the most tax efficient manner. Having an extensive range of businesses to account for, including franchises, forecourts, a supermarket, rental income and individual retail units. They are focused on identifying where they can add value, whether through potential tax planning ideas or longer term strategic advice. EKW Group are an integral part of our business success.

PAYROLL & AUTOMATIC ENROLMENT

Payroll and Auto Enrolment are overwhelming for even the most experienced business owners.

EKW Group have a full service payroll bureau which deals with 1,000's of payrolls, the smallest being one person limited companies needing 1 payslip a year, our largest weekly payrolls of over 2,000 employees. The bureau have secure methods of passing data and allow clients the ability to personalise the approach they want us to take. Even though it's a bureau we work hard on building client relationships allowing every client to have their own personal manager to deal with their affairs. Our service uses up to date specialist sector software, we can "white-label" our services to enable personalisation. Protecting our clients from rules and regulations, whether its Real Time Information for HMRC, living wage staff compliance on hourly pay rates or Auto Enrolment support to meet the Pension Regulators requirements.

With ever-changing regulations, the new pension rules state that you must automatically enrol your staff into a qualifying company pension scheme. The ability to fully outsource administration of this complex process of Auto Enrolment has become a key service we offer, making sure you stay continuously compliant. We ensure communication with staff is carried out, enrol all employees and assess eligibility on each pay period. The process involves managing all opt-in and opt-out requests for companies, to ensure employees requests are dealt with.
